

Exhibit 1

DEFENDANT METROPOLITAN LIFE INSURANCE COMPANY'S
DESCRIPTION OF EXPERT TESTIMONY AND EXPERT
REPORT FOR RICHARD COHEN, M.D., MPH

The address of Richard Cohen, M.D., MPH, is 19242 Panorama Drive, Saratoga, CA 95070.

Dr. Cohen is an occupational medicine physician. He is expected to testify on matters relating to occupational medicine and state-of-the-art.

Dr. Cohen is qualified to testify as an expert on the basis of his special knowledge, skill, education, training and experience in the field of occupational medicine and public health. He received his Medical Degree from the University of Michigan and a Masters of Public Health in Epidemiology from the University of California, Los Angeles School of Public Health. Dr. Cohen is Board-certified in the fields of general preventive medicine and occupational medicine by the American Board of Preventive Medicine. Dr. Cohen practices in the area of occupational medicine and industrial toxicology as a consultant for government entities, private enterprises and individuals.

Dr. Cohen is expected to testify about the state of medical and scientific literature as it relates to asbestos and health, presently and throughout the 20th century.

The facts known to this expert that relate to, or form the basis of, his opinions or mental impressions include published articles in the medical and scientific literature, government reports, documents produced and published by business and trade organizations, and nonscientific publications (newspapers, encyclopedias, etc.) pertaining to asbestos and health. Additional facts known to this expert were obtained through education, training and experience as a medical doctor in the field of occupational medicine and epidemiology. The exhibits this

expert will use to support the aforementioned facts will be made available for production in accordance with Rule 34 of the Federal Rules of Civil Procedure.

Dr. Cohen will opine that the generally-accepted and prevailing medical and scientific knowledge concerning asbestos-related health risks arose from publications generated by scores, if not hundreds, of researchers, and was not dependent on Metropolitan Life. He will opine that the association between asbestos and asbestosis was known by the early-1930s; between asbestos and lung cancer by the early-1950s; and between asbestos and mesothelioma by 1960. The scientific evolution of these associations was in the public domain. In connection with this testimony, Dr. Cohen will address various historical studies that purported to study the effects of asbestos, including report published by Braun and Truan entitled "An Epidemiological Study of Lung Cancer in Asbestos Miners," A.M.A. Archives of Industrial Health, 17:634-653 (June 1958). Dr. Cohen will testify that he is not aware of any involvement by Metropolitan Life in the preparation or publication of this study, which in his opinion did not affect the by then widely held belief and understanding that asbestos exposure caused lung cancer.

Dr. Cohen will further opine that Metropolitan Life's publications in the 1930s and 1940s discussed and warned of the hazards of dust, including asbestos, and were consistent with medical knowledge at the time. He will testify that he is unaware of any significant publications by Metropolitan Life after 1950 regarding asbestos. Additionally, he will opine that the threshold limit value for asbestos adopted by the American Conference of Governmental Industrial Hygienists, and exposure standards implemented in various states, initially were predicated principally on the work of Dreessen (1938), and at all times were unaffected by publications by Metropolitan Life or its employees.

Additionally, as necessary and appropriate, Dr. Cohen will opine that it is not the responsibility of outside consultants or insurance companies to address and control the health hazards of employees in the work place. He will also opine that it is the responsibility of the employer, not outside consultants or insurance companies, to educate, train and protect its employees with respect to work place hazards, including asbestos.

Dr. Cohen may also testify in rebuttal to plaintiffs' witnesses.

This expert's hourly rate to be paid for his study and testimony in this case is \$600 per hour.

I hereby certify that I have read the foregoing report and agree that it accurately describes the area and contents of my expected expert testimony in this case.

Richard Cohen, M.D., MPH

Dated: 8-9-12

CURRICULUM VITAE

Richard Cohen, M.D., M.P.H.

P. O. Box 3717
 Saratoga, CA 95070
 (408) 395-9379 (Office)

EDUCATION

College	University of Michigan	1964-1967
Medical School-M.D.	University of Michigan	1967-1971
Internship	General Rose Memorial Hospital Denver, CO (Rotating)	1971-1972
Graduate Degree-M.P.H.	University of California, Los Angeles School of Public Health; (Epidemiology)	1974-1975
Residency	University of California, Los Angeles, School of Public Health (Preventive and Occupational Medicine)	1974-1977

LICENSE

California,	1973
-------------	------

BOARD CERTIFICATION

American Board of Preventive Medicine

- General Preventive Medicine	1977
- Occupational Medicine	1982

HONORARY SOCIETIES AND AWARDS

William J. Bronstrom Memorial Prize, University of Michigan, 1967
 Delta Omega Society, UCLA, 1975
 American College of Preventive Medicine, 1977
 American Academy of Occupational Medicine, 1984

WORK EXPERIENCE:

<u>Private Practice of</u> <u>Occupational Medicine and Industrial Toxicology</u>	1981-Present
--	--------------

Provide consultative services to industrial and other clients regarding occupational medicine and industrial toxicology. Included are interpretation and application of OSHA occupational health standards, and workplace assessment and recommendations regarding existing health hazards; interpretation of industrial hygiene data with assessment of health risk; recommendations for preplacement, periodic or other medical surveillance evaluations; review and approval of protocols and procedures for diagnosis and primary care by occupational health nurses and first responders; interpretation of biological monitoring and medical surveillance data with recommendations, where appropriate, for further actions regarding health hazard identification and control; development of

administrative policies and procedures for management of occupational health programs; analysis of injury and exposure data with recommendations, where indicated; development of programs for management and employee training in medical, safety and industrial hygiene; assistance with the development, and implementation of occupational health programs including patient evaluation, toxicity assessment, employee assistance and workers' compensation claims management; research or investigation in industrial toxicology including investigation of illness clusters, ergonomic exposures and scientific literature review; provide expert testimony in epidemiology and industrial toxicology; individual patient evaluation to determine the presence of acute or chronic occupational illness; assessment and primary care of acute exposure to toxic substances; evaluation of job related disabilities in conjunction with workplace ergonomic or chemical exposures; performance of preplacement and/or medical surveillance physical examinations with interpretation of laboratory data. Teaching medical professionals industrial toxicology, response to industrial medical emergencies, industrial spirometry, medical aspects of noise induced hearing loss and physical assessment for nurses.

Clinical Professor

1998-Present

Division of Occupational and Environmental Medicine,
Department of Internal Medicine
School of Medicine
University of California, San Francisco

Provide instruction as part of post-doctoral residency or fellowship training to physicians on subjects including industrial toxicology, occupational infections, ionizing radiation, non-ionizing radiation, preventive health programs, genetic screening, health hazards of biotechnology, and occupational medicine practice; serve as a mentor to occupational medicine residents for operational research and occupational medicine practice.

Director, Corporate Health & Safety, Varian Associates, Inc.

1981-1999

Direct corporate medical, safety, industrial hygiene, and loss prevention programs and functions at a Fortune 500 diversified electronics manufacturing firm. Manage a staff of occupational health nurses, industrial hygienists, safety and fire professionals and administrative support personnel. Provide counsel and technical expertise to line management including the development of company-wide policies and procedures. Fulfill responsibilities of the Medical Director and provide expertise in occupational medicine and in industrial toxicology. Supervise and conduct health and safety audits including assessment of compliance with OSHA and company health and safety requirements with recommendations to achieve compliance where indicated. As a direct report to the Vice President of Human Resources, participate as an active member of the Human Resource executive staff interacting with all other major corporate functions and executives.

Director of California Occupational
Medical Consultants

1980-1981

Provide occupational medicine consultation similar to that described above under "Private Practice" and develop, implement and direct Fit-Med, an executive health examination and counseling center

Assistant Chief Environmental Health Service(Active Duty-Commander, USN)
Naval Regional Medical Center
San Diego

1977-1980

Commander, United States Navy, Medical Corps, acting as infectious disease and occupational health epidemiologist for shore-based active duty Navy and civilian facilities in San Diego; provide technical and administrative guidance to the occupational medicine program servicing approximately 90,000 military and 30,000 civilian workers in San Diego; clinical evaluation of patients referred from other physicians for possible occupational illness; teaching industrial toxicology and occupational medicine to physicians, nurses, safety personnel and line supervisors; Advise senior and flag officers regarding preventive and occupational medicine; instructor in industrial toxicology at San Diego Community College and UCSD; clinical instructor University of California San Diego, School of Medicine; management of a department which included 8 industrial hygienists,

approximately 15 sanitarians, 2 nosocomial infection nurses, industrial hygiene laboratory staff and administrative support personnel.

Residency-Preventive and Occupational Medicine 1974-1977

Post-doctoral training (residency) in preventive and occupational medicine at the UCLA School of Public Health. The first year included achievement of a Masters in Public Health specializing in epidemiology. The second and third years consisted of field experience including assignments as the Assistant Chief of the Long Beach City Health Department, training at the Long Beach Naval Shipyard in occupational health and epidemiology, consultation to the Los Angeles Department of Health Services in Infectious Disease and Public Health Administration and work as the nosocomial infection epidemiologist for LA County-USC Medical Center.

Kaiser Permanente, West Los Angeles 1975-1977
Urgent Care Clinic Physician

Diagnosis and treatment of non-traumatic/urgent care adult medical illness.

General Medical Officer, U.S. Navy(Lt) 1972-1974

General practice of medicine aboard ship and ashore including urgent care and emergency medicine. (Active duty Lieutenant, MC, USNR)

PROFESSIONAL ORGANIZATIONS

American College of Toxicology, 1980-2002
American Occupational Medicine Association, 1979-1989
American Industrial Hygiene Association, 1983-1991
Western Occupational Medicine Association, 1979-2004
Western Occupational Medicine Association, Board of Directors, 1985-1989
American College of Occupational and Environmental Medicine 1989-2004

PROFESSIONAL/COMMUNITY ACTIVITIES

Environmental Health Task Force, San Diego Lung Association, 1978-1980
Epidemiology Masters Degree Committee, UCSD, School of Medicine, 1978-1980
Cal/OSHA Advisory Committee on Trichloroethylene, 1980-1981
Bay Area Electronics Safety Group, 1980-1990
University of California, San Francisco, School of Medicine, Occupational Medicine Residency Advisory Committee, 1984-1986, 1999-
Cal/OSHA Director's Advisory Committee, 1985-1987, 1990-1991
Cal/OSHA Airborne Contaminants Advisory Committee, 1997-2004
UCSF Occupational Medicine Residency Curriculum Committee, 1998-1999
Editorial Advisor (Manuscript Reviewer), International Journal of Occupational and Environmental Health, 1995-2004
Editorial Advisory Board, Official Disability Guidelines, 1997-
